

## **AFTER-HOURS PEDIATRIC URGENT CARE COMING TO PELHAM**

*KidsStreet Urgent Care to Open Birmingham's First Pediatric Urgent Care*

### **FOR IMMEDIATE RELEASE**

July 14, 2017 (Birmingham, Ala.) – Pelham will soon welcome KidsStreet Urgent Care, a new pediatric after-hours clinic. Maxus Construction broke today on a new medical facility featuring two urgent cares in one building, which will be located one block from Walmart next to Aldi on Highway 31. The dual clinic will be home to KidsStreet Urgent Care, which will have a pediatrician on-site seven days a week to treat patients up to age 16. In addition, the clinic will house MainStreet Family Urgent Care, which will see patients older than 16 and provide occupational health services.

“We are excited and grateful for the opportunity to serve kids and their families in Pelham, Hoover, and Riverchase,” stated Chief Executive Officer, Sam Eskildsen. “We know that kids get sick or injured at the most inconvenient times. When everywhere else is closed for the night, we want to provide parents an alternative to a costly emergency room visit. Our hope is that offering patients the convenience of great care, after-hours with shorter wait times, and same day appointments with a licensed pediatrician will help deliver some peace of mind.”

Open from noon until 10 p.m. on weekdays and 11 a.m. to 9 p.m. on weekends, KidsStreet Urgent Care aims to provide you care when you need it. Our pediatricians at KidsStreet will be available to help with everyday illnesses and injuries as well as complete basic school and sports physicals. These walk-in clinics will not only provide treatment for issues like flu and strep throat but will also perform a number of diagnostic tests and minor procedures, such as stitches and foreign object removal. Both clinics will feature multiple exam rooms, on-site lab testing and digital X-ray capabilities to care for sprains, strains, breaks, and fractures. Additionally, MainStreet Family Urgent Care delivers a choice of occupational health services such as worker’s compensation management, pre-employment drug testing, and DOT physicals.

Medical Director, Dr. Timothy “Timbo” Taylor, M.D. is excited about giving fellow parents another healthcare option when facing the unexpected. “Not only will the state-of-the-art clinic in Pelham provide quality care that’s specialized for kids, but we also hope the convenient services and friendly staff will make the entire ordeal of being sick or injured a much more pleasant experience for both the parents and the child,” said Taylor.

In addition to a compassionate, pediatric-trained staff, KidsStreet offers a kid-friendly waiting room with magical mess-free coloring kits to prevent children from playing with germ-covered toys. KidsStreet is also the home to the company mascot, Dr. Wags, who can always be seen out at community events, schools and daycares! Furthermore, several commonly prescribed medications are offered on-site, saving you a trip to the pharmacy.

When doors open this October, KidsStreet Urgent Care will host a Grand Opening event for the entire surrounding community.
